MMT MINING SERVICES
Unit 2/12 Adrian Street
Welshpool WA 6106

www.mmtisri.com.au

About Us

MMT Mining Services are a supplier and repairer of heavy duty seats and associated products to customers across a wide range of industries.

We are proud to supply ISRI® seats, a global market leading product for installation into equipment ranging from mining trucks to earthmoving equipment to buses, trucks and other heavy vehicles.

Our seats provide a more comfortable, safer ride no matter what your application.

MMT Mining Services also manufacture custom accessories including seat covers, sun blinds, tonneau covers, document pouches, tool bags, floor mats, spare parts, seat belts, soundproofing machinery and custom awnings.

Mission

MMT aims to be the best supplier and repairer of quality seats and associated products.

Values

Respect

We endeavour to treat everyone ethically: With honesty, dignity and fairness.

Quality

We commit to continuous improvement in products and processes to effectively deliver defect-free products.

Customer Service

We aim to understand our clients' needs and meet or exceed them with excellent products and responsive service.

ISRI® Seats

We are proud to supply the world class ISRI® seat to all our customers, backed up by our outstanding service and support.

ISRI® ISRINGHAUSEN

Experience the safety and comfort of the ISRI® seat.

MMT Mining Services are the Western Australian dealer for ISRI® seats, the global market leader in the development and manufacture of innovative seating systems for mining trucks & vehicles, heavy earthmoving equipment, trucks, buses and other commercial vehicles.

We're sure that anyone who tests our seats will be impressed with what the ISRI® seat has to offer.

Using advanced design incorporating third generation suspension technology, the ISRI® seat guarantees the operator maximum safety and comfort.

Some of the major features within the ISRI® range includes

- Integrated 3-point seat belt
- Integrated head restraint
- Adjustable vertical shock absorber
- Integrated pneumatic system
- Dual stage air lumbar support
- Lateral support
- Anotomically shaped cushion
- Backrest foams

Canvas Seat Covers

MMT Mining Services supply and fit heavy duty canvas seat covers to fit a range of vehicles and trucks. Popular 4WD models we manufacture covers for include, the Ford Ranger, Toyota Hilux, Mazda, Holden and Mitsubishi range, all of which are airbag certified and tested and available in either canvas or denim.

Our canvas seat covers are recognised throughout the industry as premium quality and are made using a heavy duty canvas that offers your seat maximum protection with no sacrifice for comfort.

Our full range of covers are "Australian Made" and produced at our workshop in Welshpool, Perth. We use a variety of tested materials including:

- Canvas
- ripstop fire retardant canvas **
- UV treated heavy duty foamed black denim.

Custom embroidery is available upon request; so why not customise your covers with a corporate logo.

When it comes to seating we have got you COVERED!!

** (complies with AS1530-1 & AS1530-2.)

Sun Blinds

MMT Mining Services are proud to supply a range of sunblinds which are manufactured to the highest quality and are renowned to reduce glare and maximise protection against damaging UV rays. Our range of full block to semi-transparent blinds are easy to install using standard mounting points, which eliminates the need to drill any additional holes in your equipment.

Being easily adjustable, our complete range of sun blinds are suitable for a wide range of machinery, trucks, loaders, excavators and earthmovers. They are very popular in mining vehicles as they help to protect machine operators from damaging UV rays whilst working on site. We offer full installation with all of our blinds where required.

Our blinds are manufactured using high quality materials and are available in either full blackout black herculite or semi-transparent perforated E-screen.

Ram Covers

Not only is it costly to repair or replace a damaged RAM of an earthmoving machine, it requires costly downtime - and as they say, time is money. MMT Mining are proud to offer customised RAM covers to help guard against damage and to protect your investment.

Developed originally as a solution by request for a major client, the MMT RAM Cover is both easy to install and practical. Made from Rip Stop PVC, the MMT RAM covers have been a hit with the customers across a wide range of machines from Hydraulic Excavators to Wheel Loaders, Scrapers , Graders, Dump Trucks and more.

Being a custom product, no job is too large or small for us to handle. Call us for more information.

Machine Type	Length (mm)
Excavators	1500 to 2500
Wheel Loaders	650 & upwards
Graders	1600 to 2300
Scrapers	
Drill	360 to 820
Track Dozer	1000 & upwards
Wheel Dozer	
Dump Trucks	600 & upwards
Custom Products	Any size

Customised Canopies

Need some shade when working out on site?

Attending a trade show and need a smart efficient way to display your product while keeping your clients cool?

Why not achieve all of this while at the same time establishing a great brand presence.

MMT Mining Services offer a range a customised canopies providing sheltered areas for mobile vehicles or fixed plant no matter what your activity. These product have been manufactured to exacting standards having been refined of many years of use in a large range of applicastions across the globe.

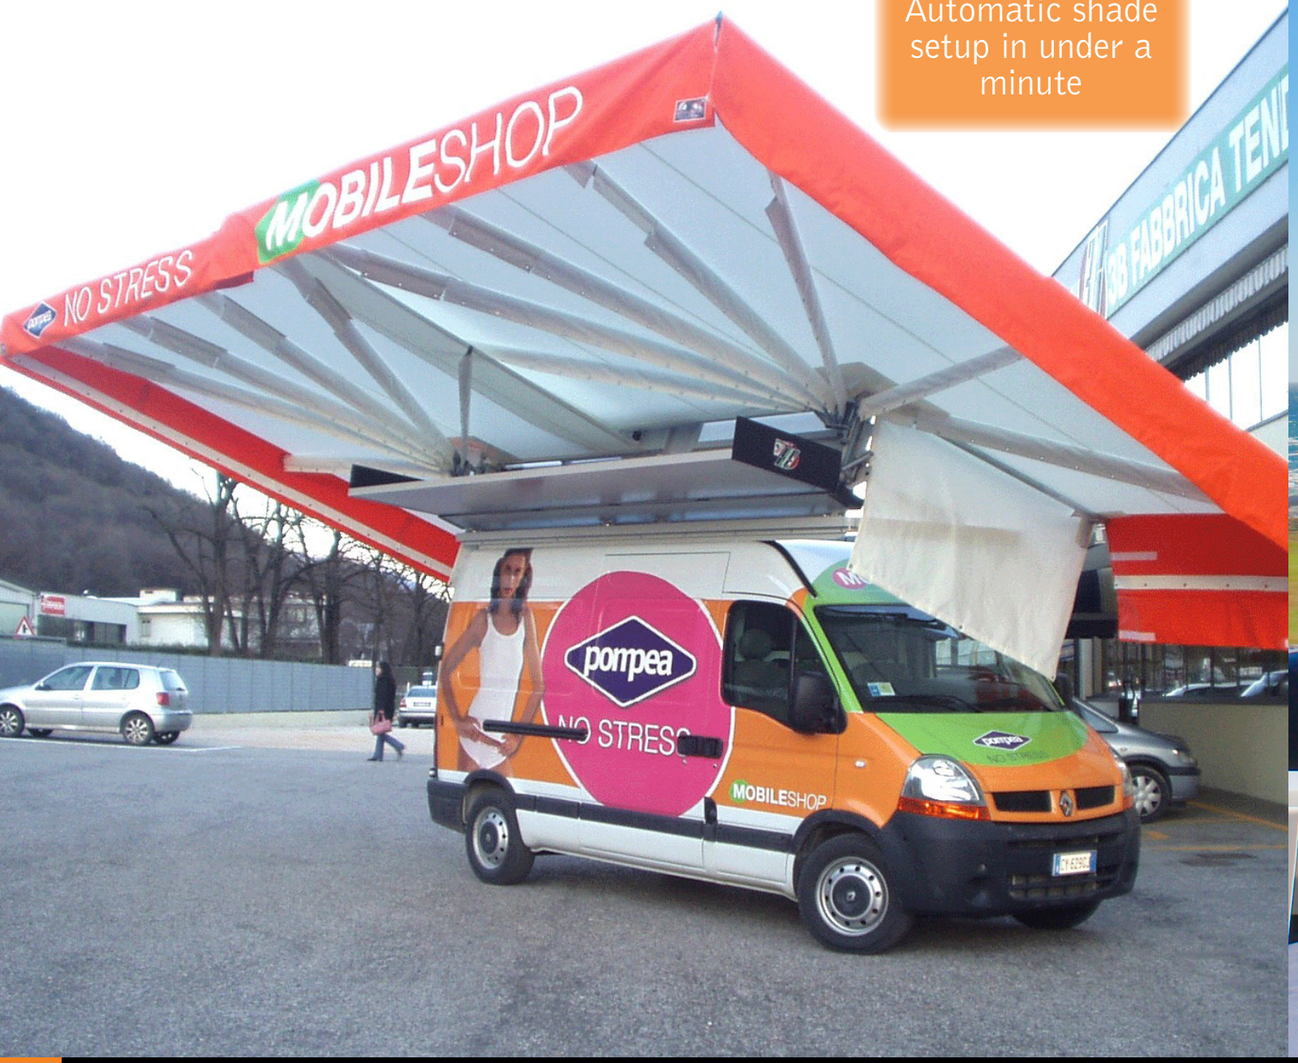
Got a mobile sales vehicle and need a great presence?

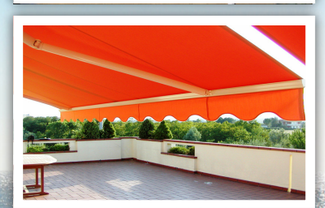
Got any other work to do where a shade solution in needed?

These canopies have been used by companies such as the Yamaha sport team, Arrow, Pantani, Pirelli, Dunlop Tyres, Renault F1, & Porsche Italy.

Call us today to enquire about a customised solution or how we can help to solve your problem.

Automatic shade setup in under a minute





Awnings

Need some shade on a building? Need some privacy? Whether you are looking to cool an interior environment by keeping the sun out, provide some external shade or are merely looking to sharpen up the look of an area, our customised awnings are a cost effective quality product.

MMT Mining Solutions carry a range of Sattilis Awnings providing a fast and efficient shade solution at the push of a button.

Why spend time manually opening blinds and adjusting them into position when you can get your shade solution in place easily, at the push of a button, at exactly the right angle.

The range of Satellis awnings have been designed for use across a wide range of applications making them ideal for covering and protecting balconies, terraces, shops, cafes, workshops and all windows with ease.

We supply our awnings in a great range of colours and fabrics. We also have waterproof material.

We offer a full installation service ensuring that no job is too big or too small.

Sattilis Blinds Features

- Fast efficient shade solution
- Adjust with the Push of a button
- Wide range of applications
- Waterproof material available
- Range of colours and fabrics

Tile Lifters

The Tegeltiller provides you with a smart solution to quickly and safely move pavers and tiles whether you are at home or on site.

Being easy to operate by hand, the Tegeltiller allows you to work quickly and efficiently, while saving your back the strain of the continuous bending and picking up motion thoroughout the working day.

Available in a range of sizes and configurations, the Tegeltiller has been developed to be used by one person for smaller 30x30cm products, to the larger Duo Tegeltiller, designed to be operated by two people.

The Duo provides an alternative to lift existing pavement and other tiling products through the use of handles located on either side of the unit.

Moving slabs, paving and other tile products over and over again is now a straight forward task.

Nozzles

Do you sometimes find it hard to get your caulking gun into hard to reach areas? Have you ever wished that the standard caulking nozzle would bend so that you could spread your caulk just at the right angle?

MMT Mining Services now carries a flexible nozzle which will help you do just that. You can now easily finish previously unreachable joints. Just turn the nozzle when you need to caulk in difficult places such as around a bathtub, a toilet, in corners or any other challenging areas.

This flexible nozzle fits on standard cartridges and rotates a full 360°. It comes with and end cap for keeping the caulking solution ready for your next use.

You can even extend the nozzle with a separate adapter increasing its versatility.

Turtle Plastics

With over 290 million tyres thrown away every year, it makes sense to for us all to consider the importance of developing a recycle solution.

MMT Mining Services are proud to supply a range of reconstituted rubber products made from these discarded tyres.

Made to measure, durable, weather resitant, and non slip, these products can be used in a range of applications such as

- Speed Humps
- Spill Barriers
- Playground Matting
- Kerbing
- Edging.
- Cable Protector
- Vehicle Movement Kerb Guard
- Appliance Mats
- Fatigue Mats
- Gymnasium Pavers
- Ramps
- Hose Protector
